Hi, I'm Vicky Crosetti, Executive Director of the Knox County Humane Society.

Each year over 14,000 dogs, cats and other animals come through these doors.

Most are brought in as strays with no licenses or identification.

Many of the puppies and kittens are brought in by owners of adult animals who can't find homes for them.

And others, like Fluffy here, end up with us because their owners simply can't take care of them any more.

The sad part about it is that very few of these loving animals will find their way into good homes.

The rest face a very bleak future.

If you are looking for a loving, loyal companion, come see us at our Shelter Facility on Hillman Road just south of UT

Hospital, or at our Adoption Center at Homburg Place or just call us at 573-9675.
